

FT BLANC

White, Rosé, Red, Fruit, Cider
Fermentation tannin for white wine

CHARACTERISTICS

Our Scott'Tan™ FT Blanc tannin is a white gall nut tannin specifically formulated for use on grapes with mold or rot (e.g. *Botrytis*). It helps protect juice from browning by acting as an anti-oxidant and inhibiting laccase activity. On sound grapes, FT Blanc is an effective antioxidant when used with SO₂. In protein rich varieties such as Sauvignon Blanc, FT Blanc can help stabilize proteins. FT Blanc can contribute notes of minerality in some wines.

RECOMMENDED DOSAGE

White/Rosé Juice	50-150 ppm	5-15 g/hL
White/Rosé Wine	50-300 ppm	5-30 g/hL
Red Wine	50-300 ppm	5-30 g/hL
Fruit, Cider, Mead	50-200 ppm	5-20 g/hL

DIRECTIONS FOR USE

Add FT Blanc by sprinkling directly on the grapes at the crusher or by adding to the juice or the wine during a tank mixing. Good homogenization is important. If an addition of FT Blanc is made post-fermentation, we recommend waiting 3 to 6 weeks after the addition before proceeding with normal rackings, fining or bottling.

BENCH TRIAL PREPARATION

Prepare a 2.5% solution of FT Blanc by mixing 2.5 g of FT Blanc with 80 mL of deionized water in a 100 mL graduated cylinder. Once combined bring the volume up to 100 mL.

Bench Trial Recommendations (*per 375ml bottle*). Allow a minimum of 24 hours before tasting.

Target Addition	mL's of 2.5% Lab Dilution
5 g/hL	0.75
10 g/hL	1.50
15 g/hL	2.25
20 g/hL	3.00
30 g/hL	4.50

PACKAGING and STORAGE

Dated expiration. Unopened the shelf life is 5 years at 18°C. Once opened keep tightly sealed and dry.
